

**THE MOST CONVENIENT WAY TO MAINTAIN
THE CHLORINE LEVEL OF YOUR POOL**

ADVANCED MAINTENANCE

QUIK[®] DEK CLOR

The Safe, Convenient Way To Add Chlorine

A&A[™]
MANUFACTURING

THE "END OF THE LINE" CHLORINE FEEDER, THAT MAKES TAB DISPENSING EASY

MAINTENANCE-FREE CONVENIENCE LOCATED POOLSIDE

In most cases, chlorine is used to keep pool water safe and sparkling clean, but handling chlorine tabs may be a nuisance. QuikDekChlor eliminates many of the inconveniences associated with using these tabs. No more running to your pool equipment area to feed chlorine tabs, and no more feeding and replacing skimmer baskets. It's simple. It's built right into your pool deck! And it requires no periodic maintenance!

EASILY ADJUSTABLE TO FIT YOUR NEEDS

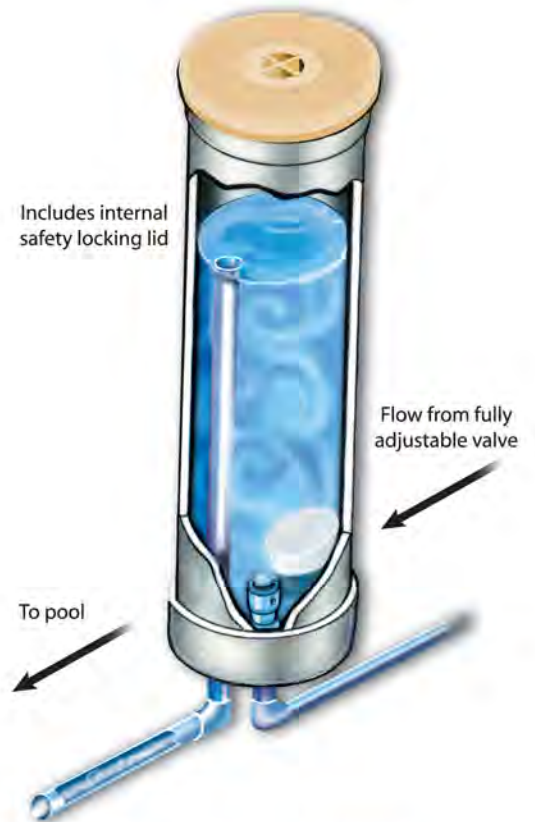

QuikDekChlor is a chlorine feeder that is conveniently installed at the deck and delivers chlorine directly into the pool. Special inlets engineered into the QuikDekChlor canister insure even water flow around the tabs. Because of this advanced design, you can easily adjust QuikDekChlor to compensate for swimmer load and chlorine conditions. And QuikDekChlor is the best choice for pools with alternate sanitizers when chlorine is also needed.

PROLONGS EQUIPMENT LIFE...SAFELY

When QuikDekChlor is installed at the deck, highly corrosive chlorine is no longer injected directly into your expensive pump motor and filtering system, clogging or destroying delicate valves. That can save you excess wear and tear and costly replacement parts. **And that can save you money.**

IT'S ALL ABOUT CONVENIENCE

- Convenient poolside location
- No periodic maintenance needed
- Fully adjustable
- Positive shut-off
- Internal safety locking lid
- Simple installation
- Non-corrosive, non-clogging hydraulic action
- Holds standard 3" tabs and large "vacation" tabs

AVAILABLE WITH WHITE, GREY OR TAN LIDS
