# HEAVY DUTY POOL BASKETS

Let's face it, pool baskets can really take a beating. They are forever under attack from harsh chemicals, erosion, UV sunlight, and the occasionally over-excited Shih Tzu. Pump and skimmer baskets protect your customer's equipment from serious damage. Why would you trust anything other than the absolute best?

CMP baskets are TOUGHER than OEM originals: twice as thick! Our baskets feature stainless steel handles that flip up or lay flat, and a built-in metal weight to prevent the skimmer baskets from floating. Our stronger lips prevent breakage and the added support feet on pump baskets protect the baskets in the high pressure pump environment.

## ORDERING GUIDE
