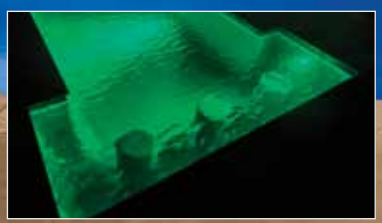
LIGHTING

ColorLogic® 320 & 160 Lights

COLOR LED POOL, SPA, AND ACCENT LIGHTING

Bring color to all corners of your backyard oasis with ColorLogic 320 & 160 LED lights. The new 1.5-inch pool, spa or accent lights provide low-profile, total color coordination of all water environments and complete synchronization with all Universal ColorLogic lights. Available in two brightness levels, and able to be installed wet or dry, ColorLogic 1.5-inch LED lights are ideal for highlighting steps, bubblers, fountains, baja shelves and other water features. These versatile, low voltage lights use far less energy than typical incandescent lights to last up to 10 times longer, saving pool owners money on energy costs and virtually eliminating service calls to replace bulbs. ColorLogic 320 & 160 LED lights come with 10 vibrant colors and 7 dynamic color-changing shows. With ColorLogic, you can expect a striking, expertly coordinated environment for all backyard occasions.



Discover total color coordination.

ColorLogic® 320 & 160 LED Lights Features and Benefits:

- > Easiest 1.5-inch lights to install at just 4 inches below waterline and in as little as 8 inches* of PVC conduit.
- > Ideal for low-profile pool and spa applications, or for lighting steps, water features, baja shelves, and more.
- > Can be installed wet or dry.
- > Lasts 10 times longer than incandescent lights.
- > 10 fixed colors with 7 color-changing shows.
- > 101 colors and 11 color-changing shows when networked with Hayward® Automation Systems.
- > Available in two brightness levels.
- > UL-listed for safe floor or wall installation.

**Networked lights 10 inches in length.*
