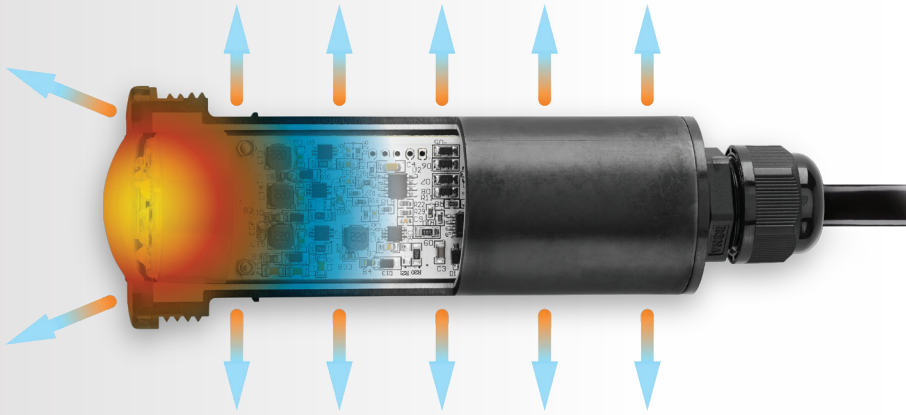
The Jandy® Pro Series WaterColors Nicheless LED Lights with **NEW HydroCool™** technology feature an innovative, energy-efficient design that runs cooler and lasts longer while providing unmatched illumination.

New HYDROCOOL™ Technology

RUNS COOLER AND LASTS LONGER

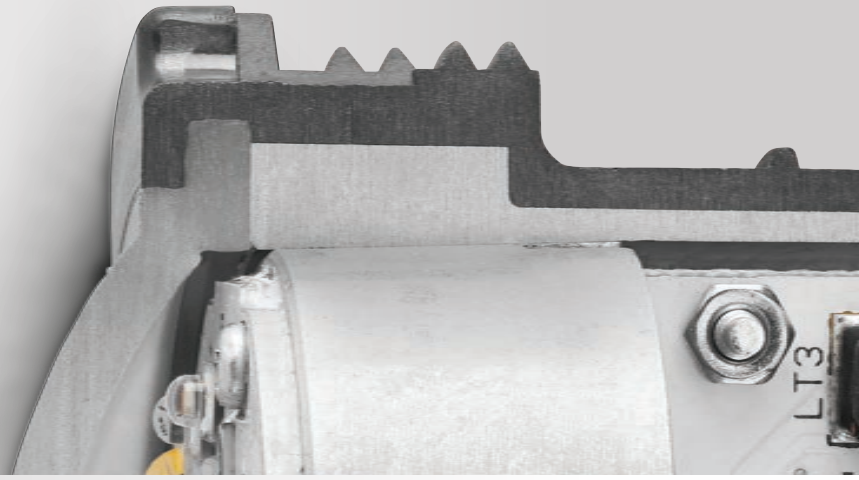
An innovative aluminum body, overmolded with thermally conductive plastic, transfers heat from the LEDs into the water ensuring that our lights run cooler and last longer.*

*Based on internal testing.



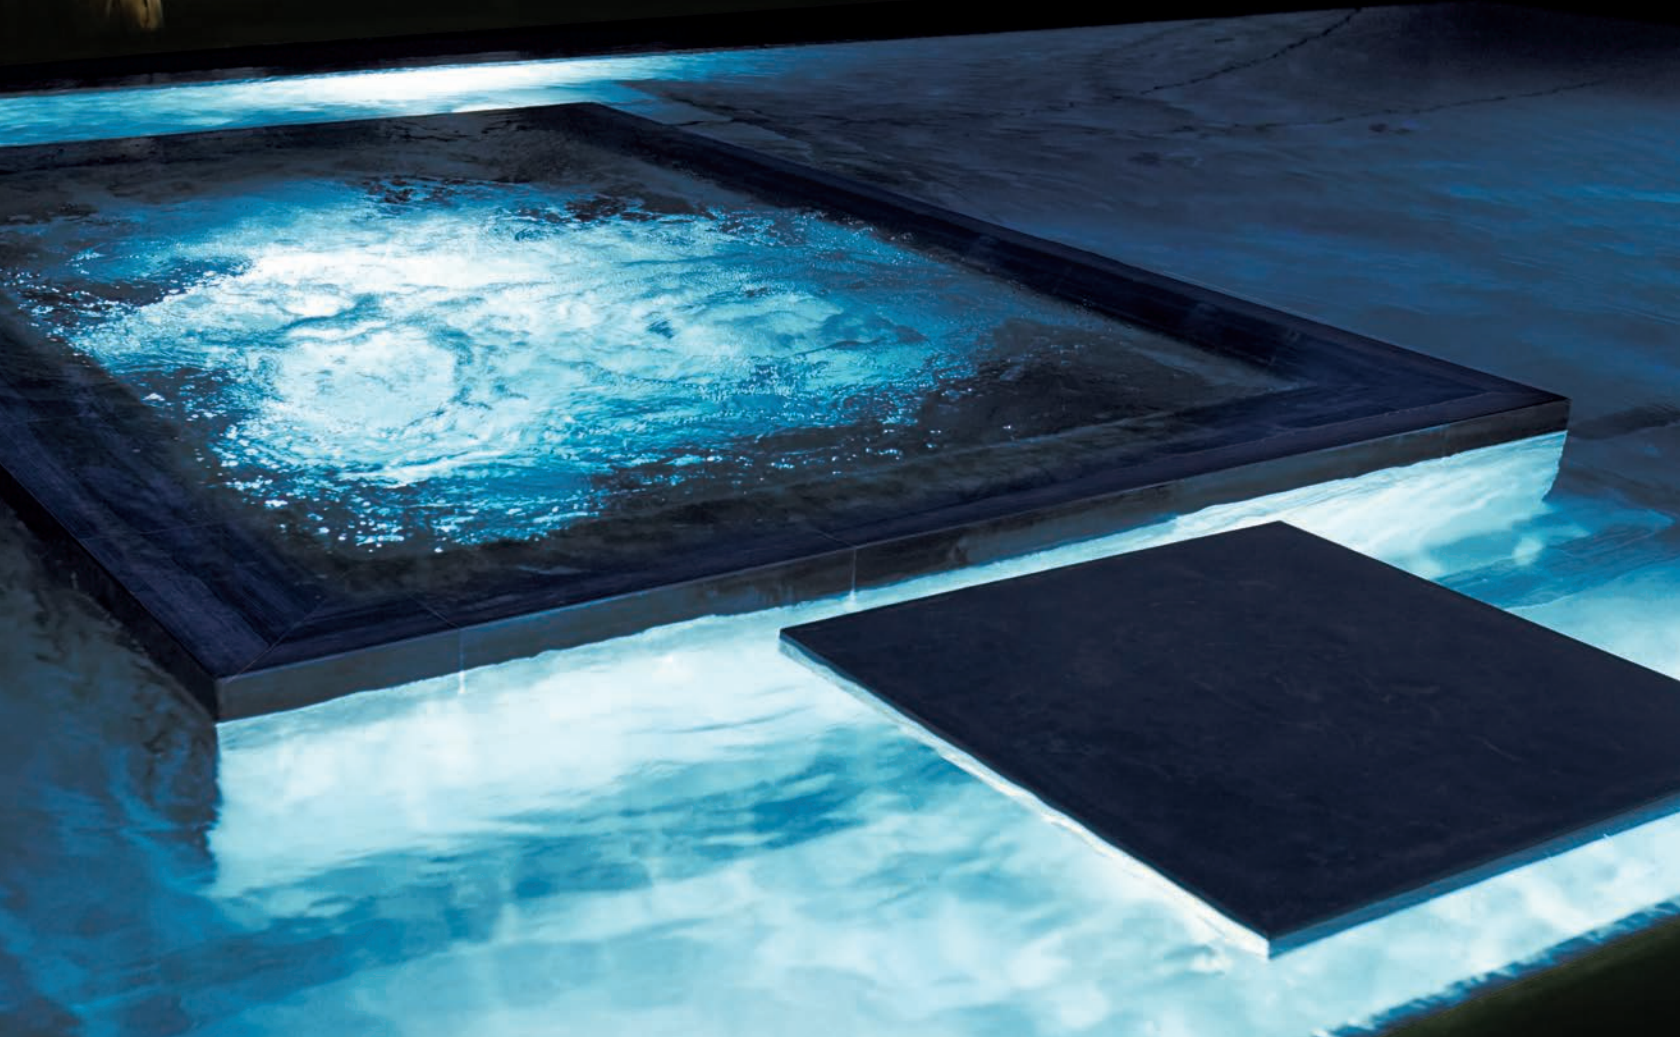
BUILT TO LAST

Triple-material, unibody construction design prevents leaks and maximizes durability under water.



A MORE EVEN GLOW

The diffuser lens provides better blending of colors for the clearest and most consistent lighting in its class.



MADE TO MATCH

Lights come standard in black with complimentary gray and white cosmetic trim ring covers to match a larger variety of pool surfaces.

OPTIONAL ACCESSORIES

Quarter moon and half moon lens covers eliminate reflective shadows and halos on the pool floor and help keep bright light out of swimmers' eyes in shallow areas.
