Pool/Spa Pumps

by Sta-Rite®

## Strong performer. Quiet leader.

Over 30 years ago, Sta-Rite introduced the first thermoplastic swimming pool pump. Those innovations continue today from the industry's top builder of high-quality pumps. The Max-E-Pro pump is Sta-Rite's premier pump and is featured in many showcase pool installations. It didn't get there by chance. Pool professionals prefer the Max-E-Pro pump for its powerful, efficient performance and extremely quiet operation.

- Precision-fit internal components and a specially designed sound-dampening base make the Max-E-Pro pump extremely quiet. So, your piece of paradise remains peaceful!

- High-efficiency motor and superior hydraulic design deliver effortless performance, energy savings and extend the life of the pump.
- The engineers were listening when pool owners said low maintenance was important. They designed an extra-large trap to hold more dirt and a "clear-view" lid so you can check for debris without lifting a finger.
- Rugged, weather-resistant construction and a motor rated for continuous duty make the Max-E-Pro pump a sure bet for years of trouble-free operation.

If you prefer the strong, silent type, put the Sta-Rite Max-E-Pro pump to work for you.

# Max-E-Pro® Pool/Spa Pumps

## A breeze to service

Quick-disconnect plumbing unions mean faster disassembly—service guys love them!

## Efficiency expert

High-efficiency motor saves on electricity. Also available with standard motor.

## So easy, so quick

A single twist-and-lift motion opens the Quick-Lock™ Trap Lid—it's that fast!

## Filled to capacity

Six-inch, extra-large-capacity trap collects more debris, which means a lot less maintenance.

## Engineering marvel

Innovative hydraulic design moves more water with less effort, which reduces operating costs.

## Nothing but the best.

The Sta-Rite® reputation for top-of-the-line equipment is unparalleled in the industry. And, we got there by gaining the confidence of professional pool builders and ultimately satisfying pool owners. Every feature of the Max-E-Pro pump has been engineered to answer the needs of today's savvy buyer: high efficiency, low maintenance and reliability. The Max-E-Pro pump nails it on all counts.

### Save money on energy costs

Superior flow dynamics effortlessly move more water. Combined with the energy-efficient motor, the Max-E-Pro pump is the ultimate energy saver.

### A lot less maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket. Simply empty the basket, reattach the Quick-Lock Trap Lid and twist it one click to the right.

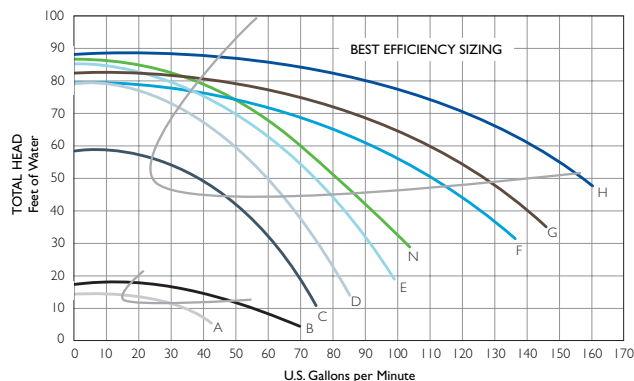

### Built for the long run

Only the finest materials are used to build lasting quality into every Max-E-Pro pump. On the outside, Sta-Rite's Dura-Glas™ Composite Resin weathers temperature extremes. On the inside, the shaft seal is constructed with EPDM rubber and the impeller is made with PPO resin to stand tough against harsh chemicals.

## Performance Curves

Available in 1/2 to 3 HP, standard and high-efficiency motors, single- and two-speed models.

### KEY

- A. 1/2 HP Low Speed
- B. 2 HP Low Speed
- C. 1/2 HP High Speed
- D. 3/4 HP High Speed
- E. 1 HP High Speed
- F. 1 1/2 HP High Speed
- G. 2 1/2 HP High Speed
- H. 3 HP High Speed
