

The Color Changing Return Jet Light is designed for in ground and above ground pools. For in ground pools, the light replaces the existing return jet. For above ground pools it replaces the strainer on the return hose.

Installation for in ground pools

1. Turn off pool filter/pump.
2. Remove the existing return jet using the included seat removal tool.
3. Thread the return jet light into the return on the pool wall and hand tighten.
DO NOT OVERTIGHTEN.
4. Aim the eyeball of the unit downward at a 45° angle to create a circular water flow.
5. Turn on the pool pump and check the water flow and light generation.

Installation for above ground soft side pools

1. Thread the adapter on to the return jet light and hand tighten. **DO NOT OVERTIGHTEN.**
 2. Turn off pool filter/pump.
 3. Remove the strainer from the pool wall upper hose connection
 4. Insert the light up return valve with attached adapter into the pool wall upper hose connect ion.
- NOTE:** You may need to loosen the hose clamp on the return hose to fit the adapter in securely.
5. Aim the eyeball of the unit downward at a 45° angle to create a circular water flow.
 6. Turn on the pool pump and check the water flow and light generation.

On/Off Button Operation

On/off button is at center of light (blue button).

1. Press the on/off button once to turn on for standard white light.
2. Press the button again to change to the fast color changing light show.
3. Press the on/off button again to change to the slow color changing light show.
4. To turn the light off, hold the on/off button down for approximately 3 seconds.

NOTE: The Return Jet Light will still function as a return even with the off position.

Storage

Thoroughly air-dry all pieces prior to storage.
